Professional Summary

Java Full Stack Developer with hands-on experience building and maintaining enterprise applications using Java, Spring Boot, Spring MVC, Hibernate, JPA, microservices, and REST APIs across the software development lifecycle. Improved application response times through MySQL query optimization while developing secure, modular backend services and integrating APIs within Agile delivery environments. Strong foundation in full-stack development, software engineering practices, modern application architecture, troubleshooting, Git/GitHub, and scalable backend development.

Technical Skills

Languages: Java, JavaScript, C/C++
Backend: Spring Boot, Spring Framework, Spring JPA, Hibernate, Microservices, REST APIs ,Spring AI,Node js
Security: Spring Security, JWT, OAuth 2.0
Messaging & APIs: Apache Kafka, Postman, JSON, Application Integration
Databases: MySQL, JDBC, Query Optimization
Tools & Practices: Git, GitHub, Maven, Agile/Scrum, Troubleshooting,Debugging
Core Concept: OOP, Collections, Multithreading,Data Structure & Algorithm, Exception Handling ,Java 1.8
Frontend: HTML5, CSS3, BootStrap, React js

Experience / Internship

GSoft Solution Pvt Ltd ,Pune | Software Developer Intern **July 25 Present**

- Develop and maintain enterprise web applications using Java, Spring Boot, Spring MVC, Hibernate, and Spring Data JPA within Agile sprint cycles.
- Implement authentication and authorization using Spring Security, JWT, and OAuth 2.0 to protect application
- Use Git, GitHub, and Maven while collaborating with cross-functional teams to understand requirements, troubleshoot defects, and deliver functionality.

Projects

UPI Offline Mesh *Java, Spring Boot, Spring AI, REST APIs, JSON, , MySQL, Postman , React js*

- Built a Java-based application offline payment backend with REST APIs for account & transaction management.
- Implemented layered architecture, JPA/Hibernate, MySQL, validation, and global exception handling
- Tested and validated APIs using Postman with proper HTTP status codes and error responses.

E-Commerce Management System | *Java, Spring Boot, Hibernate, REST APIs, MySQL, HTML,CSS,Javascript*

- Developed Category, Product, Supplier, Customer, and Order management modules for an e-commerce application.
- Integrated MySQL using Spring JDBC and performed database-driven operations for core business modules.
- Tested APIs with Postman and documented endpoints with Swagger/OpenAPI; developed responsive management pages

Education

Bachelor of Engineering in Information Technology, CGPA: 7.40 **2022 – 2025**
Sir Visvesvaraya Institute of Technology, Nashik | SPPU University

Strength

• Problem Solving & Analytical Thinking | • Adaptability & Continuous Learning | • Team Collaboration

Certifications

Java Full Stack Developer Certification
Giri's Tech Hub IT Training,Pune

Achievements

- Solved 200+ problems on LeetCode, strengthening data structures, algorithms, and problem-solving skills.
- Solved 60+ problems on GeeksforGeeks, practicing algorithms, data structures, and coding fundamentals.
